

VoiCapture

Content Media Management System

Advanced capture, archive, and communication

Discover VoirCapture, a powerful software solution that serves as the central hub for managing surgical recordings. This system is seamlessly compatible with existing AV systems and can be integrated with hospital EMR and PACS. Healthcare professionals are enabled to effortlessly capture, edit, and archive essential surgical footage. Designed with clinician input, VoirCapture ensures easy access to critical media, streamlining clinical workflows, enhancing education, and improving patient dialogue.

Vendor Neutral
