

# Voirelute

## Seamlessly Integrated 4K Displays

As technology advances and the sources we connect in the OR change, it is important to have a surgical display that is able to change with the demands of the market. Skytron's Voirelute Medical Displays are designed to accommodate all source types, no matter the resolution.

# VoirElite 4K Displays

The VoirElite Displays allow for seamless connection with the Skytron Ascend Integration platform through a single fiber connection. This helps reduce cost and installation time, all while maintaining a sharp 4K image from scope to screen. The VoirElite Displays are carefully crafted with a flush and ventless design.

	VOIR-27-X	VOIR-32-X
